

Cheese cake with mint raspberry jam

For 6 people

Ingredients

1 pack of Oreo cookies
1 pack of creamy cheese
1 tablespoon of sugar
1½ cups of mint raspberry jam

Method

Crush the cookies with a grinder and then put aside. Put fish glue sheets into a bowl of lukewarm water and let them absorb the water for about 2 minutes. Put the creamy cheese into another bowl and let it melt. Then wring the water out of the fish glue sheets and add them to the creamy cheese. Heat this mixture slightly in a microwave oven until the jelly of the fish glue sheets melts down and you can mix everything more easily. Repeat this procedure with the jam. Once it is ready, put the cookies on the bottom of a small glass to build a bottom layer; then add the creamy cheese on top and, afterwards, the jam. Put the glass in the fridge and let it cool down for about 2 hours before you eat.
